Celebrating 50 Years of Service to the Frederick Community **1958-2008**

Half a century. The Arc of Frederick County is 50 years old this year.

We still operate from the central belief of the families that started The Arc, that it is our job to listen and provide services based on what each person wants and needs.

But many services have changed during those years. Public school is a right and not a rare privilege. Medical advances keep many more people alive. Self-advocates now speak for themselves and for others with developmental disabilities. People with developmental disabilities live in much smaller places, that is, fewer institutions, and more apartments. More people with developmental disabilities have jobs.

But there is still so much to do. Not everything has changed. There are long waiting lists for services. People still get made fun of because of their disabilities.

Sometimes it makes us question why we have not solved everything. After all, half a century is a long time. We hope that we will continue to work together in growing numbers so that at the end of a century, education, technology, caring communities, a supportive government, and medical advances help us say that we have solved everything!

Join us as we move forward to the century mark!

President

Joanna Pierson
Executive Director

We thank each of you for helping us continue our work to support people with developmental disabilities and their families during FY 2008.
