The ***Letter of Intent*** is a message from your heart. It is a tool for your son's or daughter's future and your opportunity to tell how you want your child to be loved and cared for when you are no longer able to provide support for them.

The ***Letter of Intent*** is a map of what you hope for your child and a summary of things you have learned over the years.

The workshop will provide you with a ***Letter of Intent*** document. Tips and guidance for completing the document will be discussed at the workshop.
