It is important to ensure that your son or daughter is financially secure when you no longer are able to provide support. It is also important not to jeopardize any benefits your son or daughter is receiving. In this presentation, learn about the role of Special Needs Trusts (SNT) in safeguarding government benefits while ensuring your son or daughter's personal needs and aspirations are met now and in the future. The newest tool, ABLE, is now available in Maryland. Learn when to establish and use a SNT and if and when an ABLE account is appropriate.
